-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1618

Claims 1-5 are presented for examination.

The response to the restriction of April 29, 2005 has been received and entered.

Applicant's election of the species of SAHA and dry AMD has been acknowledged.

The examiner's search for the elected species did not result in any findings that could be used against the elected subject matter.

The examiner elects the species SAHA and RP and other hereditary degenerative retinal disease for examination purpose.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1 and 2 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The claimed invention is directed to the use of SAHA for the treatment of "RP and other hereditary degenerative retinal disease". Such method requires treatment of unspecified disease and no evidence indicates that the treatable disease was known to the applicant. Therefore, the fact pattern indicates that the artisan was not in possession of the claimed method of use. In the absence of the understanding the disease to be treated, the artisan would not have accepted that applicant was in possession of the invention.

Claims 3-5 are objected to as being dependent on a rejected claim.
